About Biocept, Inc.

Biocept, Inc., headquartered in San Diego, Calif., is a commercial-stage oncology diagnostics company focused on providing information on patients' tumors to physicians using its proprietary technology platform to help improve individual patient treatment. Biocept has developed proprietary technology platforms for capture and analysis of circulating tumor DNA, both in circulating tumor cells (CTCs) and in plasma (cell free tumor DNA). A standard blood sample is utilized to provide physicians with important prognostic and predictive information to enhance individual treatment of their patients with cancer. Biocept currently offers its OncoCEE-GA™, OncoCEE-BR™ and OncoCEE-LUNG™ test, respectively for gastric, breast and lung cancer and plans to introduce additional CLIA validated tests for lung, colorectal, prostate and other solid tumors based on its proprietary technology platforms over the coming months.
