About Biocept

Biocept, Inc. develops and commercializes molecular diagnostic assays that provide physicians with clinically actionable information for treating and monitoring patients diagnosed with a variety of cancers. In addition to its broad portfolio of blood-based liquid biopsy assays, Biocept is developing and commercializing cerebrospinal fluid (CSF) assays that detect cancer that has metastasized to the central nervous system. The Company's CSF assays identify molecular targets for clinical decision making and provide quantitative information for monitoring treatment response. Biocept's patented Target Selector™ technology platform captures and analyzes tumor-associated molecular markers in both circulating tumor cells (CTCs) and circulating tumor DNA (ctDNA) with higher sensitivity and specificity than most commercial assays. Additionally, Biocept is leveraging its molecular diagnostic capabilities to offer nationwide COVID-19 PCR testing to support public health efforts during this unprecedented pandemic.
